GROWS STRONG

Impression That an Extra Session of Congress is Inevitable a General One.

CUBA AND THE PHILIPPINES

Have no Show for Legislation at the Present Session, Which Is Unfortunate.

FRIENDS OF SHIPPING BILL PLEASED.

Washington, Jan. 29.—The impression that there will be an extra session of congress next spring is stronger today than ever. It is realized by many legislators in regard to the Philippines it must be accomplished at an extra session. However, there is wide difference of opinion expressed on the subject. Senators Stewart and McCormack today said that they thought that an extra session was inevitable. With only a month of the present session left, it is difficult to see how the many accumulated matters now before congress can be disposed of, to say nothing of passing of the Cuban constitution and legislation relative to the Philippines. The friends of the shipping subsidy bill are highly pleased over the prospects for the extra session.

BALFOUR'S RISE.

SLATED TO SUCCEED LORD SALISBURY AS PRIME MINISTER.

London, Jan. 29.—It is stated in official circles that Lord Salisbury, believing that his work ended with Victoria's reign, will retire, and after a decent interval Arthur J. Balfour will succeed him as prime minister.

Mr. Balfour is the government leader in the house of commons and is enjoying the closest relations with Lord Salisbury. He was Salisbury's private secretary when the marquis was secretary of foreign affairs in 1878-1880.

CABOOSE SMASHED.

AN OPEN SWITCH RESULTED IN A SMALL WRECK AT OBIION.

An Illinois Central freight train in charge of Conductor Peoples was in the siding at Obion, Tenn., yesterday when 102, the fast train, ran into a switch that had been left open behind the freight train and a rear end collision resulted. The caboose of the freight train and the passenger engine were considerably damaged but no one was hurt.

THROUGH THE ICE.

New York, Jan. 29.—Sunday sixty skaters, including many women and children, broke through the ice on a large pond near the green cemetery, Brooklyn. There was a terrible struggle for life. Two boys were drowned. The screams of the skaters were heard by men employed in a nearby factory and they ran to the pond. Long planks were pushed to the center of the pond and a life line was formed.

POLICE COURT.

ONLY A FEW CASES ON TODAY'S DOCKET.

Judge Sanders' court was brief today.

Henry Caldwell, for gaming, was fined \$20 and costs.

Henry Fagan was fined \$1 for a plain drunk.

Will Lucas and Harry Stone were charged with a breach of the peace. Stone was acquitted and the Lucas case was continued.

Pete Ross, colored, and Joe Smith, the latter better known as "Fighting Joe," were charged with a breach of the peace. Smith was only trying, in one of his playfully pugnacious moods, to break a chair on Ross' head at a Second street saloon. He was fined \$5 and Ross was acquitted.

AFTER THIRTY FIVE YEARS

DR. J. B. DIBRELL RETURNS TO PADUCAH AND FINDS MANY CHANGES—He Was a Prisoner Here in 1863—Belonged to Forrest's Command.

Dr. J. B. Dibrell, of East Prairie, Mo., came in last night en route to Dawson, Ky., for his health, and was at the Illinois Central depot this morning to take the early morning train.

It was Dr. Dibrell's first visit to Paducah since early in 1863, and he was astonished to find such a large and thriving city where he last saw only a village.

"I am a native of Tennessee," he said to a reporter, "and was in Forrest's command. We were captured at Chifton, Tenn., and taken to Salena, Ala., and then brought to Paducah on Federal gun boats.

"There were 45 of us, and we had had no sleep for three nights. We were all placed in a small house, huddled together like sheep, and had to sleep like horses—standing up. I don't know exactly where the improvement was, but it must have been about where the center of the city now is.

"We were shortly afterwards sent to Cairo on a transport. There were only eleven guards, and the forty-five of us could easily have overpowered them, but there was no way to get through the lines into Tennessee, so we contented ourselves by helping ourselves to everything around the boat that we wanted.

"We were afterwards exchanged at Clay City, Va., and resumed fighting. About the only thing I remember about Paducah was that most of the houses were small and inexpensive affairs, and the mud was ankle deep everywhere.

Dr. Dibrell goes to Dawson in hope of improving his health, and was accompanied by his daughter.

NOT AN EXPERIMENT.

A Boston merchant has written to a leading newspaper advertising to be a "successful experiment." As a matter of fact it is not an experiment, but a commonsense branch of business enterprise. Advertising began when the first salesmen spoke favorably of his wares and business methods, and when goods were first placed on display to attract the attention of the public. Newspaper advertising is simply an extension of the salesman's talk so that it may reach tens of thousands of possible buyers.

FULTON'S MILITARY COMPANY.

"HOLLY" DEAD.

MAYOR LANG IS MOURNING THE LOSS OF HIS FINE BIRD DOG.

"Holly," Mayor James Lang's fine bird dog, is dead. She was valued at \$200, but the mayor would not have sold her for any amount. She was loaned to a friend to go hunting in Tennessee several days ago and came home sick. Crawling under the house, she had not been seen for two days, and the mayor, concluding she was dead, sent a boy under the house this morning and found her suspiciously correct. She was seven years old and one of the best hunting dogs in the state.

MILD WINTER.

PROGNOSTICATORS SAY THERE WILL BE NO VERY COLD WEATHER THIS SEASON.

While it may be a little early to marvel, there is a great deal of interest manifested in the mildness of the winter thus far experienced.

The temperature has not been below 18 degrees above zero this season, while last year the mercury had gone to zero before this.

Some of the old weather prognosticators give it as their opinion that there will be no very cold weather this winter. Last year February produced some very frigid days, but they began late in January.

DESERTED CHILDREN

JAKE CALDWELL WANTED AT HOPKINSVILLE ON THIS

Charge—Alleged that He Wilfully Abandoned His Three Children The Oldest Seven Years.

Marshal Collins today received from Hopkinsville a warrant for Jake Caldwell, wanted there for "wilfully and maliciously deserting his three children, Lottie, Mammie and Collie." The oldest is seven years.

The warrant stated that he was at 128 South Third street, which would be at Henry Cooke's bakery, but he has not been there, and the police have succeeded in learning nothing about him.

CONCERNING WOMEN.

Mlle. Chauvin, the first woman barrister in France, will make her debut very soon in a divorce suit. Mlle. Chauvin is a woman of great courage and undoubted ability, who has fought her way to a high place in her profession. She is a fully qualified doctor of laws, having received the degree six or seven years ago, chiefly in recognition of a work she has written on The Professions Accessible to Women.

Princess Louise, duchess of Argyll, who has inherited her father's talent for modeling and sculpture, has almost finished another statue of the queen. This work is to be placed over the new western porch of the Manchester cathedral. Her royal highness gives the statue as a remembrance of the time when her husband, then marquis of Lorne, was a member of South Manchester.

The ex-queen of Naples is the last survivor of the beautiful group of sisters which comprised the late empress of Austria and the Duchess d'Alencon, who met her death in the terrible fire at the charity bazaar in Paris, three years ago. The queen of Naples was never so beautiful as either of her ill-fated sisters, but she had considerably more than the average share of good looks.

Much excitement was caused in Bourbon, Marshall county, Ind., by the discovery of gold bearing quartz, in large quantities, at a depth of 115 feet. Miners' claims will be immediately filed, covering a large portion of the town, providing the test proves that gold can be procured in paying quantities.

THE REGISTER'S EVASION

The Register, true to its wise policy when its circulation is in question, evades the principal points The Sun brought forth in its article challenging the Register to prove the truth of its oft flattered statement that "The Register has the largest circulation of any paper in West Kentucky, Paducah included, and the largest city circulation of any paper in Paducah. Advertising is accepted with this guarantee."

Instead, it seeks resource to another of its pet policies, bringing in personalities. We deem that unworthy of notice.

The Sun is desirous of ascertaining how far and how long the Register can carry this evasion. In this morning's issue it says:

"When it comes to circulation The Register will prove and make good all claims when it comes to show down of bona fide subscribers, which does not include dead heads and people who do not pay for the paper, and any merchant contemplating placing advertising on that basis will find us ready to furnish information to convince him of what we claim."

The Sun again says it doesn't believe this and again challenges The Register to PROVE IT. The Sun has the largest bona fide circulation in the city and can prove the claim. We are anxious for a test to be made. The Register is not, else why such evasions. It must either accept the challenge or take down a seemingly palpable misstatement, if it doesn't accept the opportunity to prove it.

The inability of the Cubans to rule themselves is being manifested in the constitutional convention in session in Havana. Political factions often quarrel and several times rioting has only been averted after police interference. The indications are that the convention, sooner or later, must break up in a row.

"Why don't you run a newspaper like that?" a merchant said to a reporter the other day, throwing out a Chicago daily. "For the same reason you don't run a store like that," the reporter replied, turning to a full page advertisement of a Chicago house showing a twelve story building. The merchant looked attentively at the picture for a moment and said: "I never looked at it that way before." —Cynthiana Democrat.

By the operation of a new law nearly 100 grocers, butchers and poultry sellers in New Orleans are forced to close their places of business permanently. The law in question prohibits the establishment of a private market within 320 feet of a public market and was enacted in the interest of the public market lessees, in order to increase the revenues of the city. It has been tested and upheld in the courts. The public markets now have a monopoly and food prices in New Orleans will go up 10 or 15 per cent.

TRAINING UP THE TERRITORIES

Much has been said about educational movements in our new territories of Porto Rico, Hawaii and the Philippines. In all three the government, through army officers and educational societies, has achieved many things. In Hawaii the work is but a continuation of the system established by American missionaries years ago, which has given the schools of almost as high a standard as those of Illinois.

In Porto Rico and the Philippines, however, the work was like that among the freedmen of the south at the close of the civil war. Officers and educators found great eagerness to learn, but they had to begin at the beginning and teach not only the three R's but the lessons of loyalty and patriotism as well.

The same sort of work has been going on for years in our territories at home. When New Mexico, Utah and Arizona were annexed there came with them into the union a mixed population of alien antecedents on one hand, and on the other hand a population as much given to savagery as the mountain tribes in Luzon. These tribes were subdued, but the Mexicans of New Mexico and Arizona did not go forward in the American way, and the Mormons of Utah resisted American authority and antagonized American methods.

Meantime the educational societies associated with several churches established schools, built colleges, and entered earnestly upon an educational movement that was to broaden in

scope as the years went by. Those engaged in this movement planned to teach Americanism as well as the school branches of education. Teachers were trained in normal schools for the work of influencing the younger generation to uphold American institutions.

It was the habit of teachers to take charge of Mexican and Indian children, and by the simplest methods and hand movements lead them from one thing to another, up to the deeds of Abraham Lincoln and George Washington. The aim always was to substitute the American idea for the old Spanish idea. Recent reports show that, while this movement has not attracted as much attention as some other educational movements, it is meeting with great success.

The younger generation in Utah is being won away from Mormonism, or at least from that place of Mormonism which indorses polygamy and antagonizes American institutions. In New Mexico the boys and girls coming within the influence of the schools and the church educational societies are growing up as Americans.

While Oklahoma increased in population from 61,824 in 1890 to 398,245 in 1900, New Mexico increased in population from 153,000 in 1890 to but 193,000, and Arizona from 39,000 to but 122,000. Oklahoma came at once within the influence of pioneer Americanism. Arizona came more slowly under the same influence. But at last, under the impulse of a genuine American system of education, the old Mexican population is coming even more rapidly under the sway of our thought and progress.

ANOTHER SENATOR-SHIP SCANDAL.

The senatorial election in Utah has given occasion for a new scandal. The Salt Lake Tribune charges that the senatorship has been transferred by the Mormon president to Thomas Kearns, in consideration of the purchase by him from the Mormon church of the Salt Air Beach and railroad, which represented an unprofitable church investment of some \$700,000. The majority of the legislature is composed of Mormons, and nominally Republicans, and the Salt Lake Tribune is a Republican paper.

Kearns is a plain miner, ignorant, uneducated and unclean in bearing, but with a good deal of political shrewdness. He made a lucky strike some years ago and is worth millions. The Salt Lake Tribune says that the Republicans of Utah, who believe in decency, personal honor and Americanism, want to make it clear to the people of the country that a senatorship from Utah has been purchased and purchased directly from the head of the Mormon church, and it asks the people of Utah and the United States "to take notice that Utahhood was obtained for Utah on falsehood and false pretenses; that every promise made by the chiefs of the Mormon church has been violated, and that the will of God, as taught by the church president, is to be determined for a cash consideration."

As the great majority of the Utah voters are Mormons this is a kind of scandal not likely to be prevented by the election of senators by the people. As for Mr. Kearns, the experience of Mr. Clark ought to have taught him that one buying of a senatorship does not secure the goods.

MULE CAUSES DEATH.

Murray, Ky., Jan. 29.—Carroll Rogers, a prominent farmer of the Edgehill neighborhood, this county, was killed by a mule rearing back and pawing him in the head. Mr. Rogers' son was "breaking" the animal when the mule became unmanageable and the father hastened to his assistance. When he reached the mule, which had "sulled," arose and pawed Mr. Rogers with such force that he died. Mr. Rogers was a highly respected citizen and was a prominent figure in county affairs.

CANDIDATES FOR COUNTY CLERK.

Princeton, Jan. 29.—Assessor R. L. Gresham and Sheriff John H. Stevens have both announced their candidacy for the office of county clerk, subject to the Democratic party. Much interest attaches to this race in view of the fact that Frank A. Pastour, the incumbent, was elected on the same ticket with the above gentlemen, but will run for re-election this year on the Republican ticket.

FIRE IN DOGTOWN.

The home of Hattie Edmunds, colored, in "Dogtown" was burned last night. It was a mere shanty, and the blaze caught from the fire. The woman saved nothing but the gown she wore, having retired, and was loaned a dress by a neighbor, and given lodging at the city hall, after the fire.

SHOT AT.

BUT OZMENT WAS NOT HIT—
DRUG STORE WINDOW SMASHED.

Considerable excitement was created last evening near Fifth and Norton. Ernest Ozment, it was reported to the police today, was shot at by an unknown young man who ran and escaped.

Ozment then had trouble near Yeiser's drug store, at Third and Jackson, and a boy threw a rock at him which demolished a window. No arrests have yet been made.

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces, such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney Co. Testimonials free.

LOCKED HIM IN.

HOW A WELL KNOWN PROFESSIONAL MAN GOT AHEAD OF THE COLLECTOR.

A good joke is told at the expense of a well known and persistent bill collector of the city.

He had called several times on a well known professional man to collect a bill, but each time had failed to collect it.

The other morning he called again, and was ushered into the gentleman's private office. Presently the latter was called out to see a patient—a friend—and the collector was left in the office.

Time dragged on and still the gentleman did not return. Waiting soon became monotonous, and the collector bethought himself of other uncollected bills and started to leave.

His surprise was great when he discovered the door locked. He was a prisoner in his friend's office, he was in a good, stout place, and likely to remain. Sooner or later, however, principally later, he got out—he does not say how, but doubtless a certain carpenter could tell.

He has not seen the sagacious professional man since, and probably isn't looking for him.

His experience points to a quiet and effective way of getting rid of a bill collector—and at the same time helping others to get rid of him.

STATE CONVENTION.

GENERAL SECRETARY MORSE TO ATTEND THE Y. M. C. A. MEETING.

The state convention of the Y. M. C. A., to be held in Louisville February 21 to 24, will be largely attended. This is the association jubilee year, the first Y. M. C. A. having been started in Boston in 1851. To fittingly celebrate this occasion, the state convention has secured Mr. Richard C. Morse, general secretary of the international committee, to present the topic, "The Significance and Promise of the Jubilee Convention at Boston, June 11-13, 1901." Mr. Morse is a member of a distinguished family and an able speaker.

Mrs. Annie L. Pierce, daughter of the great poet Longfellow, died Saturday in Boston, aged 90. She died in the Longfellow mansion, which now becomes the property of the Massachusetts Historical society.

BATTLE FOR \$450,000,000.

HOLDERS OF CUBAN WAR BONDS MOVING TO GET THEIR MONEY.

Washington, Jan. 29.—Preliminary skirmishing in a battle for about \$450,000,000 has already begun. Holders of the Cuban war bonds issued by Spain to raise funds for the prosecution of the wars in Cuba, are again moving to get their money back.

In Cuba the bondholders have met with defeat. The draft of the constitution shuts out any possibility of a compromise on these bonds, but has left the way open for the payment of the bonds of the republic of Cuba issued by the junta.

It is said here by men high in the government that an effort will be made when the constitution is submitted to congress for its approval to amend the constitution so as to open the door to a consideration by the Cuban government, when formed, of the claims under the Cuban debt.

The Cuban debt, according to one estimate, amounts to \$831,700,000 and according to another estimate to \$155,700,000.

Kenneth Hughes, a student at Lake Forest University, near Chicago, walked and rode sixteen miles in his sleep. He was found in his father's barn snoring and knows nothing of how he came to be there. The condition of his feet and the fact he was seen making the trip explains the idea he was asleep. It is also known he retired at the college.

The will of the late millionaire pork packer and grain dealer, P. D. Armour, disposes of an estate valued at \$1,500,000, according to statements made in an application for letters testamentary filed in the probate court at Chicago.

NOTES OF INTEREST.

During the last year of record Commissioner Powderly's figures show that 44,853 immigrants came into our country—a number larger by more than 130,000 than were recorded in the course of the twelvemonth previous.

T. M. Patterson, who has just been elected to the United States senate, was responsible for the defeat of Mr. Tilden for the presidency. In 1874 he was elected delegate to congress and made a plea to have the Democratic congress elected that year admit Colorado to statehood. He assured the Democratic members that Colorado was a Democratic state, beyond doubt and would give three electoral votes to the candidate for president in 1876. In the electoral college the three votes of Colorado elected Hayes to the presidency, although Mr. Patterson himself was seated by the Democratic house.

Queen Victoria was one of the richest persons and undoubtedly the richest woman that ever lived. Croesus, said to be the richest man of ancient time, was worth in the neighborhood of \$15,000,000. If such is the case, Victoria could have bought and sold him thirteen or fourteen times. An English financier, in an article in The Times, claimed that her wealth was about \$200,000,000. This is two-thirds as much as Li Hung Chang or John D. Rockefeller is worth.

BLIND GIRL LEADS A CHOIR.

Probably the only blind girl in the world who leads a church choir is Miss Katherine J. Dugan. She conducts the music at St. Aloysius's church, St. Johnsbury, Vt. Miss Dugan is a graduate of the Perkins Institution for the Blind, in Boston, having been graduated two years ago with honors. Last year she took the post graduate course. In conducting she uses a baton, as any other leader would. Her music is, of course, an exact duplicate of the choir's, only the characters of hers are raised, and she reads by feeling them.

BE CHEERFUL.

On a foggy, dismal day, what is more cheering than the bright smile of a friend? The greeting in passing lightens up the day.

To present a cheerful exterior costs nothing, yet it radiates joy to others. The real pleasures we are able to give to others in this life are inexpensive. It is the false pleasure that costs.

Who would not gladly be a fairy of the story books and cast pleasure right and left with a lavish hand? Every one may be in a similar sense a supernatural being and scatter the pleasures that come from a cheerful disposition to all who may come in their way. The day of the fairies has gone, it is true, but they have left wisdom with us. They have shown how we may scatter happiness, as they cast about them gems and jewels, and the chiefest way is by a cheerful disposition.

FLOWER FANCIES.

For tables decoration white carnations and hyacinths of the same snowy hue combine delightfully. The hyacinths are placed in a round low crystal bowl, from which rises a vase holding the spicy, nodding pinks.

There are novel flower dishes of majolica in soft pink, blue and green now to be had. The shapes of the dishes vary, but big ragged flowers, chrysanthemums or roses, appear on the outside of each. Some are in basket form, with little birds on the handles. One of these filled with pink carnations is an ideal center table adornment for a luncheon.

Bowls and fancy shapes of urds and vases, in French silver and antique gold, are becoming very popular as receptacles for flowers.

Artificial Japanese chrysanthemums and long branches of peach blossoms in an Oriental jug or jar are appropriate and pretty accessories of an Oriental corner.

SANDBAGGED AND ROBBED.

MERCHANT AT DUKEDOM BADLY MISTREATED IN HIS OWN STORE.

Ed Slaughter, of Dukedom, a well known merchant, was sandbagged and robbed in Slaughter & Franklin's store, of which firm he is a member, yesterday.

About 2 a. m. he was called from home by two men who said they wanted a burial robe. When they entered the store he struck a match and one sand bagged him, rendering him senseless. When he recovered he found he had been robbed of \$20.

Mr. Slaughter does not mind the loss of the money much, but does not like the way he was treated and offers \$200 for the arrest of the robbers. Marshal Collins at noon received a postal card offering the reward.
